2006 Oklahoma Turf Sod Source Directory

Dennis Martin
Turfgrass Specialist

Holly Han
Research Assistant

David Hillock
Consumer Horticulturist

This directory was created to assist potential sod buyers in locating sources of turfgrass sod available in Oklahoma as well as in determining availability of services such as site preparation, sod installation, sprigging, hydroseeding, and hydromulching. Information on how to establish a lawn can be found in OSU Extension Fact Sheet F-6419, "Establishing A Lawn In Oklahoma."

About This Directory

Although the information presented in this directory was current at publication time, variety availability as well as services offered by producers are subject to change.

Retail nursery operations not specializing in either sod production or sod sales were intentionally excluded from this directory as they typically buy their sod for resale from producers listed in this directory and they may not stock sod throughout the entire year. In addition to locating sod sources in this directory, home consumers may wish to contact their local retail garden center to determine turfgrass sod varieties available.

Information presented herein was gathered during March 2005 in a phone and mail survey of all known producers in Oklahoma. Some producers chose not to participate in the survey and therefore are not listed in this directory. Sod producers or other business entities specializing in the production or sale of turfgrass sod who are not listed in this directory and who wish to be included in the next update of this directory should direct their request to: Dennis Martin, Oklahoma State University, 360 Agricultural Hall, Stillwater, OK 74078. Producers that are members of the Oklahoma Sod Producers Association (OSPA) have the OSPA designation in their listing.

How to Use This Directory

Step 1: In order to locate sod retailers or wholesalers that carry the turfgrass which you are interested in obtaining or to locate businesses offering hydroseeding or hydromulching, refer to Table 1. First look for the name of the turfgrass or service you are interested in purchasing (left hand column), then reference the variety or service to the producer number(s) located in the right hand column. Please also refer to OSU Extension Current Report CR-6607 if interested in Centipede and St. Augustinegrass sod.

Step 2: Reference the producer number(s) found in Table 1 to the List of Producers and Sources of Sod on pages 3-8 of this publication. The producer number is located immediately prior to the producer company name in the List of Producers and Sources of Sod.

Step 3: When you have located a producer which carries the grass you seek, confirm that the services offered by the producer fits your needs. Some producers only serve as wholesalers while others sell wholesale or retail. In this publication, wholesalers are those that would sell to commercial or professional turfgrass operations such as golf courses, landscape architects, contractors, or grounds management professionals. Retail sales are those sales directed to the home consumer.

Other services offered by producers could include site preparation (properly preparing the site for laying sod or broadcasting sprigs), installation (laying sod), sprigging, hydroseeding, or hydromulching. Hydroseeding/hydromulching is spreading seed and/or mulch through a stream of water that contains a tacifier that seals the seed/mulch to the soil and reduces soil erosion or washing of seed during the establishment period.

Step 4: Questions concerning current sod availability and price as well as other specific information should be directed to the businesses by using the addresses or phone numbers provided.

Table 1. Reference table for matching turfgrass varieties or hydroseeding/hydromulching services and their sources.

The information given herein is for educational purposes only. Reference to commercial producers and grass varieties is made with the understanding that no discrimination is intended and no endorsement by the Oklahoma Cooperative Extension Service is implied.

Oklahoma State University, in compliance with Title VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990, and other federal laws and regulations, does not discriminate on the basis of race, color, national origin, sex, age, religion, disability, or status as a veteran in any of its policies, practices or procedures. This includes but is not limited to admissions, employment, financial aid, and educational services.

Issued in furtherance of Cooperative Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture, Robert E. Whitson, Director of Oklahoma Cooperative Extension Service, Oklahoma State University, Stillwater, Oklahoma. This publication is printed and issued by Oklahoma State University as authorized by the Dean of the Division of Agricultural Sciences and Natural Resources and has been prepared and distributed at a cost of 42 cents per copy. 0306 Revised.
